

# Industrial Performance

Make the most of your industrial investment

## Your Challenges?

- > Solve typical industrial issues such as capacity, factory organization, optimization of processes
- > Organize internal change of mindset for lasting results

## What do we offer?

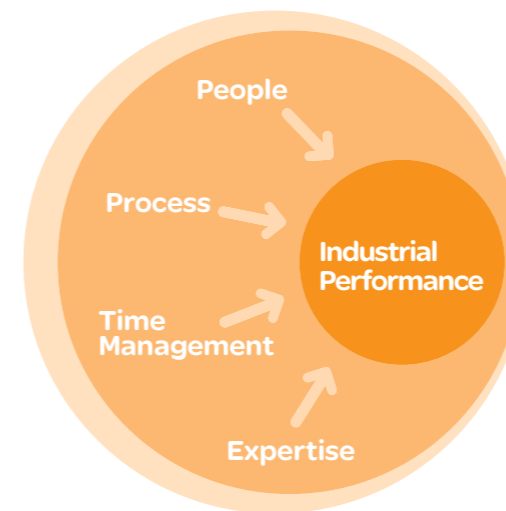

- > Consulting
- > Diagnostic
- > Productivity
- > Hands-on training
- > Change management

Based on a structured LEAN approach deployed across most Schneider Electric factories

Scope of the offer covers the entire industrial process: production, supply chain, quality, methods, maintenance, ...

## How does this work?

- > Conduct a first assessment of your potential gains in productivity
- > Identify together key areas of focus
- > Initiate the change, chasing quick Return On Investment
- > Establish time-lasting improvements

## What are the benefits for you as an OEM?

- > Accelerated implementation in your own factory of proven tools and methods to increase industrial efficiency
- > Generation of direct savings during machine assembly phase
- > Optimization of your industrial investment
- > Competence transfer to your teams through hands-on training
